**Re: Puerto Rico Telephone Co., Inc., Connect America Fund Phase I,
Second Round, Notice of Acceptance and Additional Election,
WC Docket No. 10-90**

Dear Ms. Dortch:

Puerto Rico Telephone Co., Inc. (PRT), through its counsel, hereby amends and supplements its filing submitted on August 20, 2013 in the above-referenced docket in response to the *Connect America Fund*, WC Docket No. 10-90, FCC 13-73, Report and Order (rel. May 22, 2013) (*CAF Phase I Order*). In its August 23, 2013 filing, PRT included 14,505 locations as “challenge” locations even though the only broadband provider listed for these locations on the National Broadband Map is PRT. Based on telephone conversations with Wireline Competition Bureau staff, we hereby attach a new consolidated locations file. This file identifies, by GEO ID Code including the wire center identification included in the 2010 Census Block identification, the 40,736 locations where PRT intends to deploy 4/1 Mbps broadband if the FCC provides \$31,570,348¹ in incremental support funding. As PRT emphasized in its August 20, 2013 filing, none of these locations are currently served by a PRT DSLAM and thus qualify for incremental funding pursuant to paragraphs 11, 16 and 19 of the *CAF Phase I Order* which prioritizes funding for areas that lack even 768/200 kbps broadband.

Very truly yours,

Thomas J. Navin

¹ In its original request, PRT requested \$31,589,912 but inadvertently included Census Block 721031703002020 which is now removed.
